Key Word Index Volume 20

Action potential classification
Microcomputer data acquisition and analysis; Insect olfaction; *Trichoplusia ni*, 307
Adaptation
Ladder; Locomotion; Learning; Cerebellum; Motor cortex, 323
Analytical solution
Neuronal model; Cable model, 151
Aplysia
Nickel-lysine; Intracellular staining; Retrograde labeling; Molluscan neuron, 181
Arterial injection
Deoxyglucose; Cortex; Visual; Flat-mount; Cat, 115
Automated analysis
Schwann cell; Autoradiography; Labeling index, 295
Automatic classification
Peripheral nerve; Morphometry; Clustering; Nerve biopsy, 237
Autoradiography
Image analysis; Three-dimensional reconstruction; 3D; Functional anatomy, 7
Autoradiography
Nuclear emulsion; 2-Deoxyglucose, 105
Autoradiography
Schwann cell; Labeling index; Automated analysis, 295
Axon and dendrite
Patch/whole-cell voltage clamp; Single vertebrate CNS neuron; Extracellular matrix; Three-dimensional hydrated native collagen lattice culture, 203
Axon bouton
Zinc-containing neuron; Vesicle; Synapse, 91
Axonal nodule
Quantitative morphology; "Expanded-stick" model; Golgi-impregnated material; Microcomputer analysis; BASIC; Dendritic width; Dendritic spine, 229

BASIC
Quantitative morphology; "Expanded-stick" model; Golgi-impregnated material; Microcomputer analysis; Dendritic width; Dendritic spine; Axonal nodule, 229

Behavioral test
Rat; Spinal cord injury; Functional testing; Neurologic deficit, 167
Brain slice
Lateral geniculate nucleus; X and Y cells, 211
Brain slice
Calcium; Ultrastructure; Histochemistry, 283
Brain stimulation
Wireless single neuron recording: Marking, 341
Brain ventricles
Computer software; Homogenous coordinates; Transformation matrix; Multiple transforms, 131

Cable model
Neuronal model; Analytical solution, 151
Calcium
Brain slice; Ultrastructure; Histochemistry, 283
Cat
Deoxyglucose; Arterial injection; Cortex; Visual; Flat-mount, 115
Cell culture
Neurotoxicity; Cytotoxicity; Lactate dehydrogenase; Glutamate; Cortical neuron, 83
Cell culture
Insect neuron, 195
Cerebellum
Ladder; Locomotion; Adaptation; Learning; Motor cortex, 323
Clustering
Automatic classification; Peripheral nerve; Morphometry; Nerve biopsy, 237
Cobalt-lysine neuroanatomical method
Horseradish peroxidase; Tract tracing; Visual system; Comparative neurology; Olfactory system; Frog, 1
Comparative neurology
Horseradish peroxidase; Cobalt-lysine neuroanatomical method; Tract tracing; Visual system; Olfactory system; Frog, 1
Computer
Patch clamp; Single channel current; Data acquisition, 45

0165-0270/87/$03.50 © 1987 Elsevier Science Publishers B.V. (Biomedical Division)

Computer software
Homogenous coordinates; Transformation matrix; Multiple transforms; Brain ventricles, 131
Cortex
Deoxyglucose; Arterial injection; Visual; Flat-mount; Cat, 115
Cortical neuron
Neurotoxicity; Cytotoxicity; Lactate dehydrogenase; Glutamate; Cell culture, 83
Cytochrome *P*-450
Rat brain; Microsome; Mitochondrion; Second derivative spectrophotometry; 3-Methylcholanthrene, 261
Cytotoxicity
Neurotoxicity; Lactate dehydrogenase; Glutamate; Cortical neuron; Cell culture, 83

3D
Image analysis; Three-dimensional reconstruction; Autoradiography; Functional anatomy, 7
Data acquisition
Computer; Patch clamp; Single channel current, 45
Data acquisition
Ion channel; Patch clamp; Single channel kinetics; Time interval meter, 57
Dendritic spine
Quantitative morphology; "Expanded-stick" model; Golgi-impregnated material; Microcomputer analysis; BASIC; Dendritic width; Axonal nodule, 229
Dendritic width
Quantitative morphology; "Expanded-stick" model; Golgi-impregnated material; Microcomputer analysis; BASIC; Dendritic spine; Axonal nodule, 229
Deoxyglucose
Arterial injection; Cortex; Visual; Flat-mount; Cat, 115
2-Deoxyglucose
Autoradiography; Nuclear emulsion, 105
Depth measurement
Optical encoder; Three-dimensional reconstruction; *z*-Axis computerized microscope; Fine focus, 249
Dissociated neuron
Patch clamp; Spinal cord; Guinea pig; Fluorescent label, 35

EM autoradiography
Osmium ferricyanide; EM fixation/staining; Serial reconstruction; Enhancement of membrane contrast; Extracellular tracer, 23
EM fixation/staining
Osmium ferricyanide; Serial reconstruction; EM autoradiography; Enhancement of membrane contrast; Extracellular tracer, 23
EMG
Moving force platform; Force transducer; Posture and stance; Quadruped; Kinematics; Video recording, 73
Enhancement of membrane contrast
Osmium ferricyanide; EM fixation/staining; Serial reconstruction; EM autoradiography; Extracellular tracer, 23
Excitatory amino acid
Microelectrophoresis; Pressure ejection, 221
"Expanded-stick" model
Quantitative morphology; Golgi-impregnated material; Microcomputer analysis; BASIC; Dendritic width; Dendritic spine; Axonal nodule, 229
Extracellular tracer
Osmium ferricyanide; EM fixation/staining; Serial reconstruction; EM autoradiography; Enhancement of membrane contrast, 23
Extracellular matrix
Patch/whole-cell voltage clamp; Single vertebrate CNS neuron; Axon and dendrite; Three-dimensional hydrated native collagen lattice culture, 203

Fine focus
Optical encoder; Three-dimensional reconstruction; *z*-Axis computerized microscope; Depth measurement, 249
Flat-mount
Deoxyglucose; Arterial injection; Cortex; Visual; Cat, 115
Fluorescent label
Patch clamp; Spinal cord; Guinea pig; Dissociated neuron, 35
Force transducer
Moving force platform; Posture and stance; Quadruped; EMG; Kinematics; Video recording, 73
Frog
Horseradish peroxidase; Cobalt-lysine neuroanatomical method; Tract tracing; Visual system; Comparative neurology; Olfactory system, 1
Functional anatomy
Image analysis; Three-dimensional reconstruction; 3D; Autoradiography, 7
Functional testing
Rat; Spinal cord injury; Neurologic deficit; Behavioral test, 167

Glutamate
Neurotoxicity; Cytotoxicity; Lactate dehydrogenase; Cortical neuron; Cell culture, 83
Golgi-impregnated material
Quantitative morphology; "Expanded-stick" model; Microcomputer analysis; BASIC; Dendritic width; Dendritic spine; Axonal nodule, 229
Guinea pig
Patch clamp; Spinal cord; Dissociated neuron; Fluorescent label, 35

Histamine neuron
Monoamine oxidase; Intracellular horseradish peroxidase; Tuberomammillary nucleus; Intracellular staining technique, 271
Histochemistry
Calcium; Brain slice; Ultrastructure, 283
Homogenous coordinates
Computer software; Transformation matrix; Multiple transforms; Brain ventricles, 131
Horseradish peroxidase
Cobalt-lysine neuroanatomical method; Tract tracing; Visual system; Comparative neurology; Olfactory system; Frog, 1

Image analysis
Three-dimensional reconstruction; 3D; Autoradiography; Functional anatomy, 7
Insect neuron
Cell culture, 195
Insect olfaction
Action potential classification; Microcomputer data acquisition and analysis; *Trichoplusia ni*, 307
Intracellular staining
Nickel-lysine; Retrograde labeling; Molluscan neuron; *Aplysia*, 181
Intracellular horseradish peroxidase
Monoamine oxidase; Tuberomammillary nucleus; Histamine neuron; Intracellular staining technique, 271
Intracellular staining technique
Monoamine oxidase; Intracellular horseradish peroxidase; Tuberomammillary nucleus; Histamine neuron, 271
Ion channel
Patch clamp; Data acquisition; Single channel kinetics; Time interval meter, 57

Kinematics
Moving force platform; Force transducer; Posture and stance; Quadruped; EMG; Video recording, 73

Labeling index
Schwann cell; Autoradiography; Automated analysis, 295
Lactate dehydrogenase
Neurotoxicity; Cytotoxicity; Glutamate; Cortical neuron; Cell culture, 83
Ladder
Locomotion; Adaptation; Learning; Cerebellum; Motor cortex, 323
Lateral geniculate nucleus
Brain slice; X and Y cells, 211
Learning
Ladder; Locomotion; Adaptation; Cerebellum; Motor cortex, 323
Light response
Retinal slice; Presynaptic polarization; Simultaneous intracellular recording, 139
Locomotion
Ladder; Adaptation; Learning; Cerebellum; Motor cortex, 323

Marking
Wireless single neuron recording; Brain stimulation, 341
3-Methylcholanthrene
Cytochrome *P*-450; Rat Brain; Microsome; Mitochondrion; Second derivative spectrophotometry, 261
Microcomputer analysis
Quantitative morphology; "Expanded-stick" model; Golgi-impregnated material; BASIC; Dendritic width; Dendritic spine; Axonal nodule, 229
Microcomputer data acquisition and analysis
Action potential classification; Insect olfaction; *Trichoplusia ni*, 307
Microelectrophoresis
Pressure ejection; Excitatory amino acid, 221
Microsome
Cytochrome *P*-450; Rat brain; Mitochondrion; Second derivative spectrophotometry; 3-Methylcholanthrene, 261
Mitochondrion
Cytochrome *P*-450; Rat brain; Microsome; Second derivative spectrophotometry; 3-Methylcholanthrene, 261
Molluscan neuron
Nickel-lysine; Intracellular staining; Retrograde labeling; Aplysia, 181
Monoamine oxidase
Intracellular horseradish peroxidase; Tuberomammillary nucleus; Histamine neuron; Intracellular staining technique, 271

Morphometry
Automatic classification; Peripheral nerve; Clustering; Nerve biopsy, 237
Motor cortex
Ladder; Locomotion; Adaptation; Learning; Cerebellum, 323
Moving force platform
Force transducer; Posture and stance; Quadruped; EMG; Kinematics; Video recording, 73
Multiple transforms
Computer software; Homogenous coordinates; Transformation matrix; Brain ventricles, 131

Nerve biopsy
Automatic classification; Peripheral nerve; Morphometry; Clustering, 237
Neurologic deficit
Rat; Spinal cord injury; Functional testing; Behavioral test, 167
Neuronal model
Analytical solution; Cable model, 151
Neurotoxicity
Cytotoxicity; Lactate dehydrogenase; Glutamate; Cortical neuron; Cell culture, 83
Nickel-lysine
Intracellular staining; Retrograde labeling; Molluscan neuron; *Aplysia*, 181
Nuclear emulsion
Autoradiography; 2-Deoxyglucose, 105

Olfactory system
Horseradish peroxidase; Cobalt-lysine neuroanatomical method; Tract tracing; Visual system; Comparative neurology; Frog, 1
Optical encoder
Three-dimensional reconstruction; *z*-Axis computerized microscope; Fine focus; Depth measurement, 249
Osmium ferricyanide
EM fixation/staining; Serial reconstruction; EM autoradiography; Enhancement of membrane contrast; Extracellular tracer, 23

Patch clamp
Spinal cord; Guinea pig; Dissociated neuron; Fluorescent label, 35
Patch clamp
Computer; Single channel current; Data acquisition, 45
Patch clamp
Ion channel; Data acquisition; Single channel kinetics; Time interval meter, 57
Patch/whole-cell voltage clamp
Single vertebrate CNS neuron; Axon and dendrite; Extracellular matrix; Three-dimensional hydrated native collagen lattice culture, 203
Peripheral nerve
Automatic classification; Morphometry; Clustering; Nerve biopsy, 237
Posture and stance
Moving force platform; Force transducer; Quadruped; EMG; Kinematics; Video recording, 73
Pressure ejection
Microelectrophoresis; Excitatory amino acid, 221
Presynaptic polarization
Retinal slice; Light response; Simultaneous intracellular recording, 139

Quadruped
Moving force platform; Force transducer; Posture and stance; EMG; Kinematics; Video recording, 73
Quantitative morphology
"Expanded-stick" model; Golgi-impregnated material; Microcomputer analysis; BASIC; Dendritic width; Dendritic spine; Axonal nodule, 229

Rat
Spinal cord injury; Functional testing; Neurologic deficit; Behavioral test, 167
Rat brain
Cytochrome *P*-450; Microsome; Mitochondrion; Second derivative spectrophotometry; 3-Methylcholanthrene, 261
Retinal slice
Light response; Presynaptic polarization; Simultaneous intracellular recording, 139
Retrograde labeling
Nickel-lysine; Intracellular staining; Molluscan neuron; *Aplysia*, 181

Schwann cell
Autoradiography; Labeling index; Automated analysis, 295
Second derivative spectrophotometry
Cytochrome *P*-450; Rat brain; Microsome; Mitochondrion; 3-Methylcholanthrene, 261
Serial reconstruction
Osmium ferricyanide; EM fixation/staining; EM autoradiography; Enhancement of membrane contrast; Extracellular tracer, 23

Simultaneous intracellular recording
Retinal slice; Light response; Presynaptic polarization, 139
Single channel current
Computer; Patch clamp; Data acquisition, 45
Single channel kinetics
Ion channel; Patch clamp; Data acquisition; Time interval meter, 57
Single vertebrate CNS neuron
Patch/whole-cell voltage clamp; Axon and dendrite; Extracellular matrix; Three-dimensional hydrated native collagen lattice culture, 203
Spinal cord
Patch clamp; Guinea pig; Dissociated neuron; Fluorescent label, 35
Spinal cord injury
Rat; Functional testing; Neurologic deficit; Behavioral test, 167
Synapse
Axon bouton; Zinc-containing neuron; vesicle, 91

Three-dimensional reconstruction
Image analysis; 3D; Autoradiography; Functional anatomy, 7
Three-dimensional hydrated native collagen lattice culture
Patch/whole-cell voltage clamp; Single vertebrate CNS neuron; Axon and dendrite; Extracellular matrix, 203
Three-dimensional reconstruction
Optical encoder; *z*-Axis computerized microscope; Fine focus; Depth measurement, 249
Time interval meter
Ion channel; Patch clamp; Data acquisition; Single channel kinetics, 57
Tract tracing
Horseradish peroxidase; Cobalt-lysine neuroanatomical method; Visual system; Comparative neurology; Olfactory system; Frog, 1
Transformation matrix
Computer software; Homogenous coordinates; Multiple transforms; Brain ventricles, 131
Trichoplusia ni
Action potential classification; Microcomputer data acquisition and analysis; Insect olfaction, 307
Tuberomammillary nucleus
Monoamine oxidase; Intracellular horseradish peroxidase; Histamine neuron; Intracellular staining technique, 271

Ultrastructure
Calcium; Brain slice; Histochemistry, 283

Vesicle
Axon bouton; Zinc-containing neuron; Synapse, 91
Video recording
Moving force platform; Force transducer; Posture and stance; Quadruped; EMG; Kinematics, 73
Visual
Deoxyglucose; Arterial injection; Cortex; Flat-mount; Cat, 115
Visual system
Horseradish peroxidase; Cobalt-lysine neuroanatomical method; Tract tracing; Comparative neurology; Olfactory system; Frog, 1

Wireless single neuron recording
Brain stimulation; Marking, 341

X and Y axis
Brain slice; Lateral geniculate nucleus, 211

Zinc-containing neuron
Axon bouton; Vesicle; Synapse, 91
z-Axis computerized microscope
Optical encoder; Three-dimensional reconstruction; Fine focus; Depth measurement, 249
